EDUCATION

The Apollo University

Bachelor of Technology
AI & Data Science

(2024-2028)

CGPA: 9.14/10

OBJECTIVE

Motivated B.Tech student specializing in Artificial Intelligence & Data Science, with a strong foundation in Python, C, and prompt engineering. Eager to secure an internship where I can apply my skills, collaborate on innovative projects, and grow within a dynamic tech environment.

PROJECT IDEAS

AI- Powered medi-summary (working on it)

Idea: Build an AI system that summarizes patient consultation history using NLP and categorizes it by diagnosis, treatment, and follow-up.

Innovation Add-on: Add voice-to-text input for doctors and smart prescription suggestions using past patterns.

Mental Health Mood Tracker with AI

Idea: An app that uses user journal entries (text) and NLP to detect signs of stress, anxiety, or depression.

Innovation Add-on: Personalized mood-improving content recommendations using emotion detection.

TECHNICAL SKILLS

- Programming Languages: Python, C, Prompt Engineering
- Tools & Platforms: Git, GitHub, VS Code
- Soft Skills: Communication, Teamwork, Problem-Solving

CERTIFICATIONS & ACHIEVEMENTS

- Poster Presentation – The Apollo Tech Symposium (2024)
- Presented a research poster titled "The Role of Artificial Intelligence in Leadership".
- TechXConf – International AI & Cloud Conference, Chennai Trade Centre (2024)
- Attended sessions on emerging AI technologies and industry applications.
- Leadership Development Seminar – The Apollo University
- Entrepreneurship Seminar – The Apollo University
